

### **Lampiran 1. Deskripsi Tanaman Kentang Varietas Granola**

|                         |                                              |
|-------------------------|----------------------------------------------|
| Asal                    | : Jerman                                     |
| Klon                    | : Granola                                    |
| Umur tanaman            | : 100 – 151 hari                             |
| Tinggi tanaman          | : 60 – 70 cm                                 |
| Bentuk penampang batang | : Segi lima                                  |
| Bentuk daun             | : Oval                                       |
| Bentuk batang           | : Rata                                       |
| Mata umbi               | : Dangkal                                    |
| Permukaan bawah daun    | : Berkerut                                   |
| Permukaan umbi          | : Halus                                      |
| Warna batang            | : Hijau                                      |
| Warna daun              | : Hijau                                      |
| Warna urat daun         | : Hijau muda                                 |
| Warna benng sari        | : Kuning                                     |
| Warna putik             | : Putih                                      |
| Warna luar kulit umbi   | : Putih – kuning                             |
| Ukuran umbi             | : panjang 5,58-5,95 cm; diameter 4,67-5,23cm |
| Jumlah tandan batang    | : 2 – 5 buah                                 |
| Berat per umbi          | : 82, 38, 83, 45gram                         |
| Berat umbi pertanaman   | : 300 – 800 gram                             |
| Produksi                | : 2,65 ton /ha                               |
| Umbi                    | : Baik                                       |
| Kandungan karbohidrat   | : 12%                                        |

|                     |                                      |
|---------------------|--------------------------------------|
| Kandungan vitamin C | : 13 mg/ 100 g bahan                 |
| Keterangan          | : Baik untuk kentang meja atau sayur |
| Sumber              | : Brawijaya Knowledge Graden         |

## Lampiran 2 Denah Percobaan

### Lampiran 3. Denah petak penelitian

Keterangan:

- Luas petak : 280 cm X 150 cm
- Jarak tanama : 70 cm X 30 cm

Tanaman dalam petak sampel ada 6 tanaman di pilih secara acak 3 tanaman sebagai tanaman sampel
